1 TeamConnect® Deadlines 5.1

TeamConnect Deadlines 5.1 integrates Deadlines.com, a product from Aderant, into TeamConnect. Through TeamConnect, you can generate and keep track of deadlines for each matter.

For complete configuration details, see the *TeamConnect Deadlines User Guide*.

2 System Requirements

To install TeamConnect Deadlines 5.1, you must be running TeamConnect Enterprise 5.1 (or later 5.1.x version).

TeamConnect Deadlines supports the same browsers for the respective TeamConnect version you are using with the exception of the Safari browser.

3 Upgrade Considerations

Deadlines 5.1 can only be upgraded to from Deadlines 5.0 or 5.0.1. For more information on this upgrade, see the *TeamConnect Deadlines 5.0 Release Notes.* For users upgrading directly from Deadlines 5.0, please see the Deadlines 5.0.1 release notes for information on changes migrated in from that update release.

4 Changes and Enhancements

The following section details the changes and enhancements built into the Deadlines 5.1 release. Each enhancement is listed in the following format:

- Enhancement
- Internal Tracking Code
- Location of additional documentation, if applicable

Enhancement: Deadlines 5.1 can be installed in TeamConnect via the Module Setup Tool.

Tracking code: TC-4587

Additional detail: Please see the *Using Module Setup Tool with Deadlines* page in the *Deadlines User and Administrator Guide* for more detail.

Enhancement: Tasks and Appointments created from Deadlines are flagged for improved searching and reporting. This flag does not affect the primary category of the created task or appointment.

Tracking code: TC-4559

Enhancement: Deadlines 5.1 adds the Deadlines ID field for tasks and appointments created by Deadlines.

Tracking code: TC-5128, TC-6456

Additional detail: The appended Deadline ID can be searched on. This feature allows users to easily set up custom portal panes to display deadlines, display object collections of appointments and tasks from deadlines, and use the deadlines ID as a criteria for custom search. These are not editable and cannot be duplicated.

Enhancement: Deadlines now feature the category code and category name fields. These fields can be used for reporting and custom rule creation to deliver more value and easier organization of your deadlines.

Tracking code: TC-7632

Additional documentation: These fields can be found on the Deadlines object (CLD$) within TeamConnect setup.
