Release Notes

This document details the upgrade information, new features, resolved issues, and known issues that are included in TeamConnect 5.0.1.

1   Upgrading to 5.0.1

You must be using one of the following TeamConnect versions in order to upgrade:

- 3.0 SP1
- 3.0 SP1 Update 1
- 3.1
- 3.1 Update 1
- 3.1 SP1 (including Update 1 and Update 2)
- 3.2 (including Update 1 and Update 2)
- 3.3 (including Update 1 and Update 2)
- 3.3 SP1
- 3.3 SP2
- 3.3 SP3 (including any update from Update 1 through Update 18)
- 3.4 (including any update from Update 1 through Update 8)
- 3.4 SP1 (including any update from Update 1 through Update 20)
- 4.0 (including any update from Update 1 through Update 14)
- 4.1 (including 4.1.1)
- 4.2 (including any update from Update 1 through Update 3)
- 5.0

To upgrade to TeamConnect 5.0.1, run the TeamConnect Installer as described in the *TeamConnect Enterprise Installation Guide.*

Important: Users upgrading from 5.0 with a SQL Server database should run the upgrade scripts with the database in **autocommit** mode if their instance contains a large number of line items with adjustment types other than 'NONE'.

Note: These release notes assume that users are upgrading from TeamConnect 4.0.9 or later. If you are upgrading from a TeamConnect version prior to 4.0.9, please see the TeamConnect 4.0.9 Release Notes for information necessary upgrade changes and module dependencies.

Release Notes

2   Changes and Enhancements

The items below are changes or enhancements built into TeamConnect 5.0.1. More information on these can be found online in the *TeamConnect 5.0 Help*.

Change: TeamConnect now supports Oracle WebLogic 12c.

Detail: WebLogic 11g will be descoped starting with the TeamConnect 5.1 release.

Change: The custom color profile template has been updated to support custom colors for the top navigation bar, block titles, and left navigation bar.

Detail: The new LESS template can be found on the **Color Profile Administration** page of the TeamConnect 5.0 online help.

Change: Line item adjustment types have been changed from text to enum. All reports on line item adjustment type will no longer function or be edited.

Detail: In order to run reports on line item adjustment type, first delete the data series with the line item adjustment type and recreate it.

Change: The **Disable Documents in All Services Menu** setting now removes the Documents search view from the left navigation panel.

Detail: For more information, please see *Setting Up the User Interface* in the TeamConnect 5.0 online help.

Change: Two localization values have been updated in this release.

Detail: The changes are listed in the following table:

5.0	5.0.1
webapp.suffix=- TeamConnect 5.0	webapp.suffix=- TeamConnect 5.0.1
email.forgotPassword.body.request=You recently requested to reset your password. Please click on the button below to start the password reset process.	email.forgotPassword.body.request=You recently requested to reset your password. Please click on the link below to start the password reset process.

Release Notes

3   Upgrade Considerations

TeamConnect 5.0.1 supports both JDK 1.7 and 1.8. Similarly, the 5.0.x line supports WebLogic 11g as well as 12c.

4   Resolved Issues

The following items have been resolved in the 5.0.1 release. Each known issue is documented in the following format:

- A description of the issue

- Internal tracking code

- Case number, if applicable

Issue: After posting, invoice totals differed between the Account Summary and Invoice Total fields.

Tracking code: SUPPORTPRI-16897

Case number: 2016-0215-231929

Originally fixed in: TeamConnect Enterprise 4.2.3

Issue: Global search indexing of files with email attachments failed and reverted all correctly indexed items.

Tracking code: SUPPORTPRI-19034

Case number: 2016-0701-259842

Originally fixed in: TeamConnect Enterprise 4.2.3

Issue: Performance slowed after significant (~4GB) email uploads.

Tracking code: SUPPORTPRI-19779

Case number: 2016-0628-259139

Originally fixed in: TeamConnect Enterprise 4.2.3

Issue: Users with rights exclusive to Group records were able to view Category Rights.

Tracking code: SUPPORTPRI-20241

Case number: 2016-1025-280990

Originally fixed in: TeamConnect Enterprise 4.2.3
