TAP Release Notes 1.2.1.5

This page details the bugs that were fixed in the 1.2.1.5 release.

Resolved Issues

The following items have been resolved in the TAP 1.2.1.5 release. Each issue is documented in the following format:

- **Issue:** A brief description of the bug that was fixed.
- **Tracking Code:** Internal tracking code for internal Mitrtech folks to reference.
- **Salesforce Case Number:** Curious if your bug was fixed? Copy your Salesforce case number and search for it on this page.

Issue: When multiple documents (PDFs) were uploaded in a workflow, only the first document was correctly emailed to a recipient. This happened in workflows that had multiple PDFs, had eSignature support enabled, and had the *Submit template without eSignature service* box checked.

Internal Tracking Code: TAPSUP-1128

Salesforce Case Number: 2019-0618-534488
