TAP Release Notes 1.2.1.7

This page details the bugs that were fixed in the 1.2.1.7 release.

Feature Enhancements

The following enhancements have been implemented in the 1.2.1.7 release.

Enhancement: Currency validation was added as a part of the TAP-TeamConnect Integration. Previously, TeamConnect decimal fields could be mapped to TAP text fields with decimal and numeric validations.

Internal Tracking Code: TAPSUP-1274

Additional Detail: This enhancement was developed as a part of support case 2019-0522-528719.

Enhancement: When creating a form in TAP, users now have the ability to search for and select matter information (like matter name or matter ID) and see the respective matter information pre-populate other form fields. They can further edit the information while referencing previously submitted matter details.

Internal Tracking Code: TAPSUP-1558

Additional Detail: This enhanced feature affects Admins and End Users. Admins have the ability to configure forms and create workflows that pull TeamConnect information into form fields and automatically pre-populates the information for End Users. Learn more about this feature in our [Client Success Center](#).

Resolved Issues

The following items have been resolved in the TAP 1.2.1.7 release. Each issue is documented in the following format:

- **Issue:** A brief description of the bug that was fixed.
- **Tracking Code:** Internal tracking code for internal Mitrtech folks to reference.
- **Salesforce Case Number:** Curious if your bug was fixed? Copy your Salesforce case number and search for it on this page.

Issue: When using eSignature support and dynamic form field for attachments, only PDFs were correctly organized and sent in the order in which they were attached. When client attached a Docx file, the file is incorrectly 'dropped' to the end of the document.

Internal Tracking Code: TAPSUP-1223

Salesforce Case Number: 2019-0219-508564

Issue: An outdated version of our third party software, AngleSharp, resulted in client not being able to save workflows across many tenants.

Internal Tracking Code: TAPSUP-1230, TAPSUP-1350

Salesforce Case Number: 2019-0814-547260

Issue: Only users with Super Admin rights were able to edit NDAs.

Internal Tracking Code: TAPSUP-973

Salesforce Case Number: 2019-0507-525298

Issue: An email was not sent to respective users when their name was added to a comment in the collaboration stage using @Name. This issue occurred in environments that accessed their environment using SSO and not via

Internal Tracking Code: TAPSUP-1085

Salesforce Case Number: 2019-0606-532135
