TeamConnect Legal Matter Management 5.0.1 Patch 3
Release Notes

This document provides instructions for installing TeamConnect® Legal Matter Management 5.0.1 Patch 3 (PTCL5001003).

The following patch is a client-specific resolution for existing TeamConnect defects. As such, users will need to contact Mitratech Support ahead of any future upgrades to obtain a custom Upgrade Toolkit.

Issue: The Time Entry tool is unable to find correct time periods when dealing with daylight saving time. When a user tries to enter a new time entry, the system returns the error, "The time period does not exist for the requested date. Please choose another date."
