## 1 TeamConnect® Office Suite 2.2.0.1

---

TeamConnect Office Suite 2.2.0.1 includes the following add-ins:

- TeamConnect Office—Integrates into Microsoft Word, Excel, and PowerPoint.
- TeamConnect Outlook—Integrates into Microsoft Outlook.

You must install each add-in separately. For complete installation and configuration details, see the *TeamConnect Office Integration Installation Guide* on the Mitratesch Success site: [success.mitratesch.com](http://success.mitratesch.com)

## 2 Performance Notes

---

Performance will vary depending on the number of integrated search views and the number of projects returned by those search views. Testing of Office Suite 2.0 indicates these results:

- An environment with 23 integrated search views can be initialized in 5 seconds
- An environment with 54 integrated search views can be initialized in 11 seconds.

**Note:** *These numbers will be affected by other factors such as PC configuration (RAM, CPU, etc.) as well as network limitations (speed, latency, etc.)*

## 3 System Requirements

---

TeamConnect Office Suite has the following system requirements for installing and configuring:

- Must be able to run installer as administrator
- Clients must have .NET Framework 4.7.1 installed **prior to installing this patch**
- TeamConnect Enterprise 3.3 SP2 or later

---

**Note:** For TeamConnect Office Suite to work with version 3.3 SP2, you must install TeamConnect Enterprise 3.3 SP2 Patch 16 along with the patch listed in the below table. Use the **Available Updates** section of the **About** page to install Patch 16. For more information about how to install, refer to “Viewing Information About Available Updates” in the *TeamConnect Administration Guide*.

---

- IMAP, POP3, or Google Sync
- Microsoft Word, Excel, and PowerPoint 2007, 2010, 2013 and 2016 (for TeamConnect Office)
- Microsoft Outlook 2007, 2010, 2013 and 2016 (for TeamConnect Outlook)
