## Changes in this Release

### CMO Compliance Features & Enhancements

#### Web

| S. No | ID       | Description  | Platform | Fix Version |
|-------|----------|--|----------|-------------|
| 1     | CW-29142 | When a user creates a local copy of an Organizational dashboard, the action is performed correctly but the organizational dashboard does not get displayed along with the local dashboard. | Web      | v17, v18    |

### Error Corrections

#### Web

| S. No | ID       | Description   | Platform | Fix Version |
|-------|----------|---|----------|-------------|
| 1     | CW-28040 | When a user tries to export events data report for scheduled reports, the hyperlinks within the report show incorrect links. This has now been fixed.   | Web      | v17, v18    |
| 2     | CW-29031 | When a user imports an Event, the response for a question is not updated and a default value is displayed during the import process when a default value is already set in the form configuration. This has now been fixed.           | Web      | v17, v18    |
| 3     | CW-29086 | An unwanted text is being displayed on the images attached within a document. This has now been fixed.  | Web      | v17, v18    |
| 4     | CW-29140 | When a user tries to edit a form with a dropdown editable field, the system throws CC error. This has now been fixed.   | Web      | v17, v18    |
| 5     | CW-29141 | When copying the subsection in a form, then the selected question in the copied subsection should be same as in the original subsection, instead, the copy subsection functionality does not copy correctly. This has now been fixed. | Web      | v17, v18    |
| 6     | CW-29177 | When a user saves filter settings for PHAIR widget and reopens filter settings and adds or removes entities, the Event Category filter settings resets every time. This has now been fixed.   | Web      | v17, v18    |
| 7     | CW-29270 | When a user clicks on 'Get Local Copy' option on a selected dashboard, the system displays wrong pop up message. This has been fixed by updating correct message to be displayed in the pop up. This has now been fixed.              | Web      | v17, v18    |
