

What's New in DataStore 4.3

With the release of **DataStore 4.3**, we're taking DataStore to new heights – the rollout of the Web Searching Client marks the first momentous step in the evolution toward a browser-based platform.

New Features

Web Searching Client

DataStore 4.3 brings a new web-based version of Searching Client – a significant step in the evolution of DataStore. This first release gives your users read-only access to data and the ability to view stamps, notes, and attachments from their browsers.

The screenshot displays the 'Statements Data' web interface. At the top, there are search filters for Customer Name, Customer Code, Statement Date (>01/01/1992), Currency, and Page Number. Below these is a 'Start Search' button and a 'Reset' link. The main area contains a table of search results with columns for Record No., Customer Name, Customer Code, Statement Date, Currency, and Page Number. The table lists 21 records, including entries for PMD Enterprises, LM Associates, and READING Corp. To the right of the table is a detailed view of the selected record (Record No. 1), showing account details for 'PMD Enterprises' and a financial statement with columns for 'DEBIT' and 'CREDIT'. The interface also includes a 'Download' button, a 'Quick Access Link', and a footer with version information (Version 4.3.0.0) and a 'Privacy Policy' link.

The decision to transition to DataStore towards a web-based applications offers customers many benefits, including, but not limited to:

- An enhanced ability to rollout the search functionality to new departments without IT's support
- Easier access to data and more straightforward integrations using hyperlinks, which can be generated for specific documents
- A simplified upgrade process that removes the need to upgrade each client PC
- Significantly reduced IT complexity when it comes to searching for remote or hybrid workers

New features to extend the functionality of DataStore as a web-based application will be added over time in incremental releases, delivering the most impactful changes first.
