Changes in this Release

IntergrumLive Features & Enhancements

S. No	ID	Description
1	INTEGRUM-3030	Implemented new functionality in the IntegrumLive app where the user can now select the FormMR as "Same as Initiator".

Error Corrections

S. No	ID	Description
1	INTEGRUM-2592	Instead of allowing, selecting 'Yes' for the setting "Enable Group Edit Rights by ACL" does not allow the user to create a subform.
2	INTEGRUM-2768	The workflow status of a record is not displayed in the browser view when it is created in the IntegrumLive mobile app.
3	INTEGRUM-2883	The latitude and longitude text field behave incorrectly, as it takes the values outside the range and does not accept negative values.
4	INTEGRUM-2886	The new "my favorites" smartform view with bookmarked records is showing correctly in the browser but displays incorrect data in the mobile app.
5	INTEGRUM-2959	The IntegrumLive app audit trail timestamp is updated with a consistent display of timezone, am/pm details, and format of the date.
6	INTEGRUM-2960	The group edit right is not working on the IntegrumLive mobile app even though the setting "Enable Group Edit Rights by ACL" is set to 'Yes'.
7	INTEGRUM-3961	Instead of not allowing it, the IntegrumLive app allows a parent form to be completed and closes the workflow in spite of open subforms.
8	INTEGRUM-4095	When an image is attached to a form using the browser and when the same form is opened in the mobile app, the attached image is not displayed.
9	INTEGRUM-4241	Enabling the form editing rights by ACL i.e. selecting 'Yes' for the setting "Enable Group Edit Rights by ACL" incorrectly allows the editing of the completed records.
