Introducing CMO Compliance New Mobile Application

Compliance Manager (CMO) is introducing a new mobile application - **CMO v18 lite** to its customers. The new application is an enhanced version of the current and native mobile application available in the app market. This application's look and feel for both iOS and Android will be the same with a new mobile-friendly UI. This new mobile application will have the same codebase for both iOS and Android which helps the developers make a seamless mobile product for its clients.

The following modules are available in the CMO v18 lite app:

Modules:

- Action
- Event
- Dashboard
- Obligations
- Findings
- Control
- Report
- Training
- Entities
- Bulletin
- Sync
- Settings

Note:

- *The CMO's new mobile application features are compatible with the latest CMO native app v18 (both iOS and Android).*
- *Please sync the local data to the server before starting to use the new CMO v18 lite mobile app to avoid loss of data.*
