## Changes in this Release

### Error Corrections

S. No	ID	Description
1	INTSUP-2768	In the mobile app, if a username consists of a special character, then the user is unable to log in to the application.
2	INTSUP-2839	In the mobile app, when the user opens an existing Smartform, the text fields are not visible when the app is opened in a non-English language.
3	INTSUP-2853	The previously selected language is shown in the mobile app as default when the user changes the language, logs out and logs in again.
4	INTSUP-3028	When a mobile app user logs out of the application and logs in again via SSO, the application prompts the user to re-enter the login credentials.
